DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: the claims recite a combination of lighting means and of a light intensifier night imaging vision system, the light means comprises a white light-emitting source that is not filtered in the red wavelengths, the light-emitting source including at least a white light-emitting diode or a white light-emitting panel which emits polychromatic white light with high radiant energy in the violet/blue wavelengths band and with low residual energy in the red wavelengths band, the lighting means being configured not to disturb the light intensifier night vision imaging system when the white light-emitting source is not filtered in the red wavelengths. Lang (WO 96/27896) does not disclose the white light-emitting source without a filter to generate a proper light spectrum for night imaging vision system but does teach a light source that utilizes a filter that eliminates red wavelengths band. Either Bill Schweber or Justel et al. or Shimizu et al. teaches a white light-emitting diode where different phosphorus coatings for desired frequency output. Because none of the references disclosed the combination of light emitting source that is not filtered in the

Art Unit: 2875

red wavelengths to reduce the residual energy in the red wavelengths band purpose of not to disturb the light intensifier night vision imaging system, nor is there any motivation to combine them where currently amended claims now read more positively to recite the "not filtered in the red wavelengths", the claims are deemed patentable over the prior art of record. Claims 1-7,9-13,15-21,23-29,31-51, 53 & 54 allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

3. Examiner acknowledges that the applicant has amended claims 1, 2, 15-21, 23-29, 31-42, 44-51, canceled claims 8, 14, 22, 30, 52, & remaining claims are 1-7,9-13,15-21,23-29,31-51, 53 & 54.

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacob Y Choi whose telephone number is (571) 272-2367. The examiner can normally be reached on Monday-Friday (10:00-7:00).
